Colvin,  
Cleaver  
Seek Post

Two more hats landed in the School Board contest ring this week as Hugh F. Colvin and Kenneth Cleaver filed for the post to be vacated by Dr. Milton Valois.

The deadline for filing expired yesterday, while the election is scheduled for May 17.

Mr. Colvin, president of Consolidated Electrodynamics Corp., has a distinguished background in the business and engineering fields. His home is at 336 Sturtevant Dr., Sierra Madre.

Mr. Cleaver, 40, is an attorney with law offices in Eagle Rock.

A graduate of the California Institute of Technology in 1936, majoring in applied chemistry, Mr. Colvin subsequently did post-graduate work at Harvard University.

From 1936 until 1947, when he joined Consolidated, Mr. Colvin held positions with several organizations, including the American Gas Association and the Union Oil Co. He also was a lecturer from 1940 to 1945 at California Institute of Technology.

He served as treasurer and assistant to the president of Consolidated from 1947 to 1953. Subsequently he became vice president, general manager, a member of the Board and, in 1956, president.

He is a member of the Sierra Madre Library Board and also is associated with the Harvard Club of California, the Pasadena University Club and the American Ordinance Association, as well as many others. In addition, he is a director and treasurer of Unitek Corp.

Mr. Colvin and his wife, Audia, have four children, two girls, and a set of twins.

Mr. and Mrs. Cleaver, who have no children, have lived in Sierra Madre for 18 months. His general law practice is in Eagle Rock where he is a member of the Masons, Glendale and Los Angeles Bar Associations and a sustaining member of the YMCA.

His practice, Mr. Cleaver said, has covered educational problems within school systems and he has worked with county probation officers.

"I am running for the post because I feel there is a sad lack in basic education to prepare children for maturity," he stated.

Mr. Cleaver came originally from Philadelphia, is a graduate of the Pacific Coast University of Law.

Other candidates for the single opening are G. Norman Kennedy, a Pasadena attorney, and Claude H. Brown Jr., president of Parkway Manufacturing Corp., Pasadena.

Dr. Valois, Sierra Madre dentist, retires from the Board of Education after six years' service.

The Townsends, who live at 655 Rim Road, Hastings Ranch, were featured recently on the Assignment America TV show, Channel 5. Heading the parade are Robert and Ronnie, followed by Jennifer, Marjorie and Mrs. Ronald Townsend. Mr. Townsend is superintendent of the Parks Department in Pasadena.

Bill Leeses Mark  
50th Anniversary

Marian and Bill Leeses were recently honored by Tillie Froehlich and the Emblem Club Sewing Group, at a luncheon in celebration of their 50th wedding anniversary.

Brakes Gone,  
Car Careens  
On Auburn

Robert Murphy, 534 Brookside Lane, careened down Auburn St. Wednesday in a brakeless car, burst through the intersection at Sierra Madre Blvd. and struck an empty parked car in front of Safeway store.

In his report to police, Mr. Murphy stated that when he attempted to stop at Highland Ave. he discovered he had no brakes. Gaining speed, the car lurched from side to side as he tried to run it into the curb. He failed to halt until he had crossed the boulevard and turned it in toward the curb in front of the market. He struck and damaged the car belonging to Marilyn C. Wilson, 3860 Landfair Rd., Hastings Ranch.

Mrs. Miriam M. Baumann, 756 N. Auburn, was injured, police believe, when she fell during the confusion of the crash. She was taken to Dr. M. H. A. Peterson's offices, found to be suffering abrasions of the hands, elbows and knees.

## Value of Good Planning

Less than one year ago the Cypress Court area of Sierra Madre was still wallowing wearily in the dust. Despite the addition of several attractive medium-priced homes, Cypress Court had too many shanties. There were too many potholes in its unimproved streets. Houses were difficult to sell.

Indeed, because of the condition of the streets and the lack of house numbers, mail was delivered to one central point. Water trickled into the houses from a small, inadequate line.

Sounds bad, and it was. In fact, Cypress Court, after years of neglect, was gradually turning into a blighted area.

Today, thanks to good city planning, good city administration and, above all, the willingness of residents to help themselves, Cypress Court is becoming an attractive little community of unpretentious homes, an asset to the city.

There now are four fully paved streets, curbs and gutters, and a new water line. Street names are now being selected and the houses will be numbered.

Tangible results of the improvements already are evident. Three houses which had been for sale for several years recently were purchased. Three makeshift dwellings have been torn down and other similar structures are expected to disappear shortly.

Also, residents of Cypress Court are beautifying their properties when only a short time ago there was little incentive to improve anything.

And all this came after the formation of an improvement district which cost only \$11,239. Already it's apparent that the value of the 37 homes in Cypress Court has increased by much more than that amount.

Much credit must go to City Administrator Lawrence C. Bevington, who pushed the project through to its completion, to the City Council and to the Cypress Court residents who in March, 1955, petitioned the city to form an assessment district.

Sierra Madre is a better place to live because of their efforts.—H.W.E.

## Too Many Fund Drives

Time was in Sierra Madre, I understand, when there were no more than three dollar drives a year.

They included campaigns for the Community Fund, which corresponds with the present Community Chest, the Red Cross and the March of Dimes.

Now, in addition to these, we have drives for cancer, multiple sclerosis, heart, cerebral palsy, Sister Kenny and at least a half dozen others. All, needless to say, are worthy causes.

But there is a limit, especially at Income Tax time, to the number of solicitations the human system can endure. Furthermore, the multiplicity of drives detracts from organizations that depend solely on funds collected from the general public.

Take the Red Cross, for example. It is having a hard time this year meeting its quota. So is the Community Chest, funds from which help support many agencies.

We all know the tremendous progress made in the fight against polio. The March of Dimes was largely responsible for turning our contributions into life-saving results. Undoubtedly, heart research and all the others can benefit from the nickels and dollars you contribute.

But if the current trend continues and more and more needy organizations enter the solicitation field on their own, normally generous people may start closing the door in the face of the solicitor.

It's about time, it seems to me, to revert to the old system before the solicitation business gets completely out of hand.

No more than three drives a year—with one central agency handling the bulk of them—would be sufficient and should produce better results.—H.W.E.

## OUT OF THE COBWEBS

**44 YEARS AGO THIS WEEK**, April 18, 1913—Frank Volvin, the hermit of Big Santa Anita Canyon, suffered serious injuries and nearly lost his life as the result of an explosion last Friday afternoon. He will lose the sight of both eyes, and his left hand is gone.

## Easter Morning

Lee Shippey asks  
What Do You Think?

With baseball here again, let's talk about sportsmanship.

Competitive sports can inspire young people to live cleanly, develop strong muscles, courage, stamina, resourcefulness and determination and win highly gratifying honors—if coupled with sportsmanship. But the more sports become commercialized the reader not only the athletes but the public are to accept dirty play as part of the game, and that is demoralizing all of us.

Baseball, for example, is a beautiful game, calling for continual displays of strength, speed, perfect grace and timing, skills which reveal pure artistry to those who understand them. The continual challenge of crises which put the batter, the pitcher or the fielder on the spot, so that victory or defeat hinges on how he rises to the emergency. All that and sportsmanship, too, create a contest which can thrill us with exalted enthusiasm.

**YET I SUSPECT** that today and for several years now, every professional player and most college players are coached to prevent double plays by knocking the opposing shortstop or second baseman off balance, sometimes severely injuring the latter. And, unfortunately, all the fans betting on or pulling for the team the base runner represents cheer him for that action or feel he has failed in his job if he fails to prevent a double play.

All such action is supposed to be "accidental." A player sliding into second base is assumed to be in such a desperate hurry he cannot avoid such accidents. If a player prevented a double play by seizing an opponent's throwing arm he would be penalized for dirty play, yet he is cheered for "accidents" everyone knows are not accidents.

The sad fact is that in every sport involving important money many persons are far more interested in the money than in the sport.

Sportsmanship should place fair play above both money and victory. When it does not, it not only debases the ideals of the players but of all those who cheer them, and can become the accepted code of business and politics and personal life.

The unfair practice of preventing a double play by an intentional accident is accepted because "everybody does it now." So is the unfair practice of charging Uncle Sam \$27 for \$3 waste-baskets. In short, sportsmanship should be a synonym for honor, and should demand fair play in the home, the office or in public life.

**PARDON ME** for preaching as above, but I got mad when I heard a "sportsman" refuse to give the Red Cross \$1 "because there are so many drives now"—and then make plans for a trip to Las Vegas which might easily cost him several hundred dollars.

True, there are too many drives now. But there is only one Red Cross, only one organization which acts right now when a disaster strikes. Uncle Sam's Public Health Department through Bethesda Naval Hospital, Walter Reed Army Hospital and every other great government hospital, is perpetually studying cancer, heart disease and other ills, but only the Red Cross maintains a great blood bank for war or peace and can put doctors, medicines, food, clothing and shelter where they are needed right now.

The Salk vaccine is proof that a crash program against a single disease can bring blessed results, so all those drives deserve support. But the Red Cross is the one which daily saves lives of traffic accident victims with blood, helps veterans, service men and their families, rushes to the aid of victims of flood, fire, accident or pestilence. Be a sportsman. Let's not let down an organization which serves so many—responding at once, just like the Fire Department.

## Palermo Shows Traces Of Many Foreign Invasions

By Edward Lloyd Voorhees

Like all of Sicily, Palermo shows in its architecture and its population the traces of the many foreign invasions it has undergone through the centuries since the coming of the Carthaginians in 850 B.C. The Greeks began to nudge out the Carthaginians some centuries after founding their first Sicilian colony at Naxos in 735 B.C.

These activities were followed, at intervals of centuries, by the Romans, the Saracens, the Normans—under King Roger, who fought the Saracens for 30 years (1060-1090 A.D.)—later by the French, until the "Sicilian Vespers," and still later by the Spanish, and then by the Bourbon King of Naples, until the great patriot Garibaldi freed Sicily and Naples in 1860 and gave them to the Savoy King Victor Emanuel to make the United Italy as it exists today. The most recent invasion was that made by our airborne forces and land troops, with the British, in World War II.

**OF THE** three historic buildings I felt the impulse to visit again during my brief visit to Palermo, one was the Cathedral. It is an impressive example of the blending of several types of architecture widely separated by time and ethos. A mosque during the Saracen period, though it had been an earlier Christian basilica, the present structure was founded by Walter of the Mill, an English archbishop of Palermo in 1185.

Its great doorway and two towers date from the 14th and 15th centuries, and the

## Post Office Funds May Prevent Further Cutbacks

By Edgar W. Hiestand, Rep. 21st District

A story goes that a well-known Southern orator arose in Congress one afternoon to belabor his colleagues for voting against their principles.

"Nevah, nevah give in to your principles," his voice boomed out. "Compromise on the means of attaining them, but always stick to your ideals."

Next day, on a crucial issue, the southerner switched his position and voted in favor of a project he had lambasted the previous day. The opposition immediately roared into him for voting against his principles.

"But gentlemen," the southerner replied, "there comes a time when one must rise even above principle. Gentlemen, I have heard from my constituents."

**THIS COULD** have happened in the House recently. Or so were the indications when Congress voted emphatically to restore a \$50 million appropriation that it had cut out just 24 hours earlier.

The appropriation called for federal aid to build sewage treatment plants in states and local communities. It had been killed by a 162-140 vote before the "constituents" made themselves known. Next day it passed 231-185.

Thus a new strategy has unfolded as the "Battle of the Budget" continues on Capitol Hill. This new tactic, developed by the spending bloc, calls for slow deliberation on every item that faces the risk of being cut. We saw the strategy in full effect.

On one afternoon we had no less than 14 roll calls. If this is not an all-time record, certainly it is a modern record, for Speaker Sam Rayburn could not remember more roll calls on any day since he entered the House 44 years ago. The strategy of considering each item slowly gives the pressure groups a chance to alert the hustings to wire their Congressmen and urge them to vote for continued spending.

Apparently we of the "economy bloc" will face a continuation of this strategy as we try to pare the budget to sensible figures. Enough votes switched to swing Congress away from sizable cuts in the budget for the Department of Labor and Health, Education and Welfare. However, my mail is still running at least five to one in

favor of cutting down the appropriations.

**BOX SCORE**—My desk chart this week shows a slightly higher percentage of money saved out of the total requested than it did last week. This is due almost wholly to recommendation of the Appropriations Committee for slashing about 25 per cent out of the budget asked for the Commerce Department.

Here's the reading: Total requests considered, \$14,659,455,151; total approved by House or reported to House, \$13,577,651,911; total saving, \$1,081,802,740; percentage of saving, 7.4 per cent. (The previous week the saving amounted to only 6.2 per cent.)

**DON'T CONFUSE** these cuts with the cuts in the Post Office Department which have been under heavy fire. These postal requests are in the current (1957) supplemental budget.

I am sure that we can restore funds to the Post Office Department in time to prevent any further curtailment of services. I talked with Chairman Tom Murray of the House Post Office Committee, who assured me that his group is pushing hard to bring out a bill for rate increases soon. These are designed to put the Post Office on a self-sustaining basis next year, on the principle that "users pay in proportion to services rendered."

You are paying the postal deficit in your taxes whether you use the mails much or not. As for the present crisis, I'm certain we shall be able to take emergency action soon.

**SMOG HAS** been in the news back here. Last week the California delegation held together and there was no debate when a \$4 million appropriation came to the floor for work on the smog problem nationally. It passed without challenge.

Primarily smog is a local responsibility, but in my opinion there are three areas where the federal government should enter. I have sponsored bills to this effect.

One area is the field of research. Studies made in one city or state should be coordinated with studies made elsewhere to avoid duplication of effort, and I believe the federal government should help in this national coordinator.

## Candid Comments . . .

## Smog Confusion 2nd Only To Confusion of Politics

By Fred Edmunds

One thing about the smog is that the pollutants from whatever is causing it are second only to the pollutants of confusion pouring forth from the experts. Witness a recent air pollution control meeting at the Statler Hotel.

This was a technical meeting presumably to review successes that had been gained, but the consensus of lay opinion was that nothing reasonably constructive had been accomplished. Indeed, many of the experts themselves voiced this rather gloomy revelation.

**TWO DAYS** of conferences and reports piled upon reports, ad infinitum, showed that as of this writing the popular "whipping boy" now is the automobile exhaust.

Well, five years ago the cause was industry. And industry laid out millions of dollars to control what air pollution control politicians said must be controlled.

Result: More smog. Some of these same politicians, at this last meeting, revealed in solemn tones that exhaust controls must be installed (at an estimated cost of \$150 to \$200) and that would put an end to smog. Well, the public possibly would lay out such an amount to so equip their automobile. But, if history repeats itself and after some one million automobile owners spend this kind of money, I would hate to be in the shoes of these civil servants come the first day of smog.

The wrath of the voting public is perhaps the only real thing our local politicians can understand. Most air pollution control experts think now the cause is the automobile exhaust. Others think it might be fumes escaping from paint manufacturers. Still others think it is pollutants from refineries and dry cleaning establishments.

**WITH A QUESTIONABLE** record of such "successful deductions" these administrators have achieved so far, I'll wager the general public will think that the cost of exhaust controls for the family bus is a bad bet. But wait a minute. Why all this fuss and cost of such formal bureaucratic meetings?

Let's see. The L.A. County Recreation Department which sends a handout starting—"Peter Rabbit will be a very busy person this week." As anybody, including Webster, knows, a person is "one as distinguished from thing or animal." So let's just have Peter Rabbit being a very busy rabbit this week, please.

**HASTY RETREAT** Department: Ralph Cohen sauntered into the local grill, picked up the menu, stared at the waitress and announced in a shocked voice: "I just remembered my wife told me to come home today."

## The Kulinary Kettle . . . Success Guaranteed With Mrs. Woodworth's Pudding

By Toni Macaurin  
SY. 7-9634

I have always had a mental block about Yorkshire Pudding. It has been one of those absolutely delicious viands that I've left for someone else to prepare.

When Mrs. Philip R. Woodworth, 522 W. Sierra Madre Blvd., gave me her recipe she assured me that no one could do it wrong and guaranteed success every time.

### YORKSHIRE PUDDING (Serves 8)

2 cups flour  
3 eggs beaten (whole)  
Beef drippings  
1/2 tsp. salt  
2 cups milk

Sift flour and salt together add beaten eggs, then add milk. Beat mixture until smooth. Many prefer to mix this 3 or 4 hours before using and then to beat well just before cooking.

When purchasing roast beef, be sure to obtain an extra piece of fat to put over roast. Drain drippings off into about a 9"x12" pan. Have fat boiling in pan as you pour in mixture. Place in 450° oven for 20 minutes and then reduce heat to 350°F. for another 20 minutes. Cut in strips and serve at once with roast beef and gravy or butter.

**MRS. WOODWORTH** has lived a colorful and interesting life. She was born in British India where her father was a civil engineer, building railroads and bridges. When she was still a young girl the family moved to England where she received the majority of her education, finishing it up in Switzerland.

In 1929 while enroute to America, she met Dr. Woodworth, who had been studying in Vienna. She went to school at Columbia for part of a year and then they were married. They moved to Sierra Madre in 1946 with their two children, Rollin and Margo, after the doctor returned home from service.

Since their arrival here Mrs. Woodworth has been very active in community life. She has been closely associated in the past with the Girl Scouts, the PTA, served as the third president of the Co-ordinating Council, worked with Family Service,

and at the present is on the committee in Pasadena for the Los Angeles Philharmonic on maintenance and ticket sales.

Her hobby, for which she says she has too little time, is gardening, and her lovely yard is a living testimony of her handy work.

### Walter H. Killams Leave for Hawaii

Mr. and Mrs. Walter H. Killam, residents of 622 W. Alegria for the past four years, have sold their property and are moving next week to Hawaii.

Their daughter, Elaine, leaves today for her third trip to England for an indefinite stay. She will fly the Polar route to Denmark.

Mr. Killam was in the newspaper business in the San Joaquin Valley for many years and was secretary to Sen. Hiram Johnson during the Coolidge Administration.

While living in Sierra Madre, he was active in the GOP.

### Dan Tyler Marks Eighth Birthday

Danny Tyler, son of Mr. and Mrs. James Bryce Tyler, 223 San Gabriel Ct., celebrated his eighth birthday anniversary last Saturday at a party in Hamilton Park.

Following the playing of games, ice cream and birthday cake were served to the guests.

Taking part in the festivities were Barbara Herber, Phyllis Goodsell, Alan George and Stephen Matson. Chickenpox kept the guest of honor's brothers, Pat, Tim and Mike, from being present.

The couple grew up in Sierra Madre and were happy to be transferred back to Southern California.

### ALA Schedules Potluck Supper Thursday Night

The American Legion Auxiliary has scheduled a potluck supper next Thursday at 6:30 p.m. in the Clarence Noshier home.

At a recent meeting, the group voted a \$10 donation to the cemetery fund and \$35 to send a scout to summer camp.

Eight members from the local auxiliary attended the district meeting held last Monday evening in Glen.

Latest word received from the Oscar Willumsens, who sustained injuries when they were hit by an automobile in San Diego, is that Mrs. Willumsen has returned to the couple's trailer and Mr. Willumsen is still in the hospital where he will have to remain for the next five months.

Another member, Mrs. Amy Beisel, was involved in an auto accident in Covina last week. She was fortunate in escaping with no injuries but her car was demolished.

### Dr. Robert Baker In Organ Recital

Dr. Robert Baker, organ virtuoso, will present a recital in the sanctuary of the Imanuel Presbyterian Church, Los Angeles, April 29 at 8:15 p.m.

Pasadena and Valley districts of the Los Angeles Chapters, American Guild of Organists, have arranged this concert, which will include the old masters of organ literature and contemporary compositions.

EVERYBODY WAS HAPPY, with the possible exception of the pony, at a recent birthday party at the home of Mr. and Mrs. Newell Barrett, 425 Canon Drive. The party was in honor of the fourth birthday of Mrs. Barrett's daughter, Hilary Sain (riding the pony). Other youngsters who attended are Christine Michael, Jean Moyer, Lisa Barrett, Molly Campion, Diane Wilson, Kathy Forest and Pauline and Pamela Fassenden.

### AUTO CLUB MOTORLOG

## Balboa Park, Harbor, Rich History Make San Diego Visit Rewarding

(The following motorlog is one of a series prepared by the Automobile Club of Southern California)

One of the most pleasant ideas imaginable at this time of the year is spending a day in San Diego. In fact, planning a weekend in this vicinity is an even better thought.

Everything about this trip is a pleasant contemplation—including the lovely coastal drive itself. Angelinos can take either the coastal route from Long Beach along Alternate US 101 or use the Santa Ana Freeway and 101 to Capistrano Beach, where the coastal and inland routes of 101 merge and proceed down the coast.

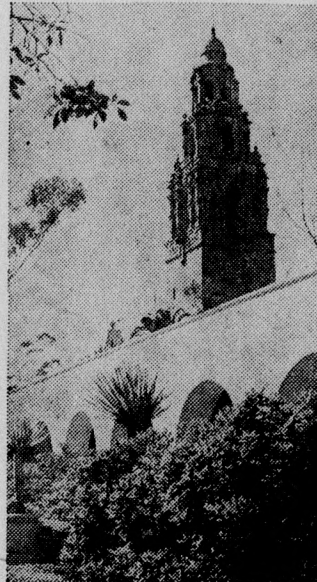

Whichever route they choose, motorists can plan on three to four hours of delightful driving overlooking beautiful beach areas. A slight detour also brings them to the enchanting seashore resort of La Jolla, whose charms have often lured visitors into extending a casual look-around to a two or three-hour stay.

Once in San Diego itself, the motorist has a wide choice of things to do and see. Balboa Park—with its three museums and San Diego Zoo, one of the largest in the world—is one extremely popular attraction. Also of great interest is Old San Diego, where Presidio Park and a galaxy of other historical landmarks are located.

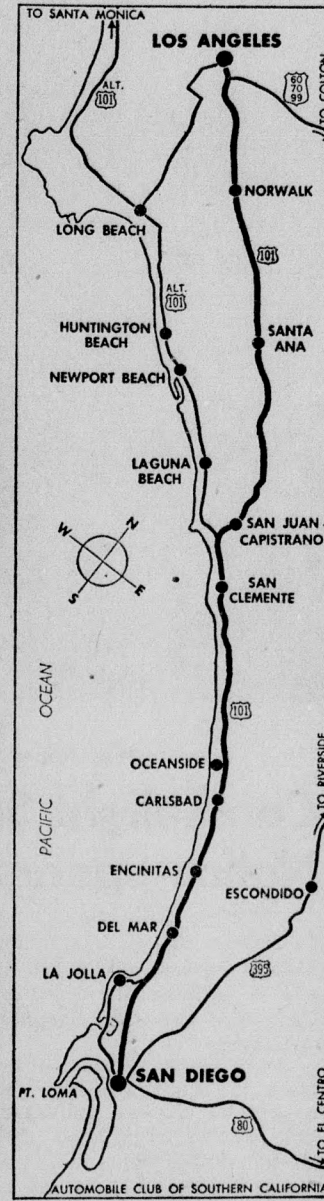

Only a six-mile drive from the old city is Mission San Diego de Alcalá, first mission to be established in Alta California.

Another popular attraction is the Cabrillo National Monument at Point Loma, where the Spanish explorer first sighted land in Alta California. Then, of course, there is the city's great harbor, where one may see many of the Navy's finest vessels, the Coast Guard base, tuna fleets and a multitude of other nautical points of interest.

After a brief interlude in San Diego and its surrounding area, chances are that one will feel that he hasn't seen all that this country has to offer—a situation which can be remedied by only one intriguing solution: a second look.

BALBOA PARK — California Tower is one of park's many landmarks. Comprised of 1,400 acres, park also houses great San Diego Zoo.

COASTAL DRIVE — A glimpse of scene at San Diego, where U. S. 101 parallels stretch of beach, indicates beauty of coastal drive. A great part, city is site of vast Naval base.

## A new age of automobiles begins with this car

Here Today! The FORD SKYLINER—world's only Hide-Away hardtop

Once in a long, long while a car comes along that people remember and talk about for years after its introduction.

The first model "A" Ford was such a car...  
 The first Ford V-8 was such a car...  
 The first Ford Thunderbird was such a car.

Today Ford Division is proud to announce still another car that many say is destined to become the most famous Ford of all: The Skyliner—world's only hide-away hardtop.

If you plan to buy a new Ford, or already own one, the fact that Ford created this car is important to you. For all the exhaustive research, planning and testing that went into the Skyliner is evidence of the engineering skill you get in every Ford model.

The Ford SKYLINER, the only all-steel hide-away hardtop, is a car for history. This is an old dream of Detroit, a dream of two generations of motorists. And today Ford has made that dream come true—in steel.

But the story behind this dream is a story of men who refused to accept "no" for an answer. In the Ford tradition they kept striving toward the goal long after others had given up the chase.

To understand this Ford spirit you must go back to 1908. That was the year

when many Detroiters smiled smugly as Henry Ford announced, "We will build a motor car for the great multitude . . . so low in price that no man making a good salary will be unable to own one."

And they did. Today, nearly a half century later, Ford continues to cause the "experts" to change their tune. When you see this all-steel hardtop that retracts into a convertible, you'll be seeing a car that many said would never be mass-produced.

But Ford did it.

It was December 1956—after eight years of research, planning, experimenting and testing—when Ford unveiled this masterpiece . . . unveiled it amid all the pomp and splendor of the New York Automobile Show.

And now this history-making car, this prototype of a whole future generation of cars, is ready for your own personal inspection in the showrooms of many Ford Dealers.

Plan to see it soon. And ask your Dealer to show you the exciting advances in all models of the new Ford line for '57.

It's the newest new kind of

## Tenebrae Service Planned by Three Churches Friday

For the fourth consecutive year, Faith Lutheran Church in Hastings Ranch, First Lutheran Church and Mount Olive Lutheran Church, all of Pasadena, will participate in a Tenebrae service on Good Friday afternoon, 1 to 3 o'clock. The service this year will be held in Faith Lutheran Chapel.

Rev. A. Hesse, host pastor, announced that the service will consist of seven meditations, entitled "The Seven Hours," each meditation featuring a hymn, special music, prayer, and an address on one of the Lord's Seven Words.

Kenneth Euker of the host parish will serve as organist during the first hour, with Walter Koch, principal of the Pasadena Lutheran School, as organist during the second hour.

### SERVICES EASTER

The glorious power of atonement manifested in the resurrection of Christ Jesus is emphasized in the Easter Sunday service of all the churches of the Christian Science denomination. The topic of the sermon is "Doctrine of Atonement."

### EASTER SERMON

"The Risen Christ" will be the topic at both services to be conducted Easter Sunday morning by Dr. Ethel Barnhart, minister of the Santa Anita Church of Religious Science, 778 S. Rosemead Blvd., Pasadena. The early service will be at 9 a.m. and the later one at 11.

## Garden Notes . . .

### Wide Variety of Easter Plants Brightens Holiday

There is no nicer way of marking the Easter season for friends and relatives than with a living bouquet—an Easter plant.

The traditional Easter flower in the minds of many is the Easter Lily, always a lovely remembrance. But there are many other attractive flowering plants that will also make appropriate Easter plant gifts, informs the California Association of Nurserymen.

Most of the Azalea species are in full bloom at Easter and their bright pink, red, purple, white and orange blooms cover each plant almost completely. Azaleas given as Easter plants can be grown in the container they come in or can be transplanted outdoors. Either way they will continue to give pleasure for many years to come.

**CAMELLIAS** are certain to please everyone no matter what his gardening tastes may be. A special Easter plant gift of Camellias in bud or flower could be chosen from the late-blooming Japonicas or the Reticulatas, a late-blooming species made available to the gardening public within the last few years.

Roses in bud and bloom can be given as Easter plant gifts, too. You will find all the favorite rose varieties growing in containers, including the All-America selections and the established favorites.

Perhaps you would rather give an Easter remembrance with no particular season of bloom, such a planter filled

with succulents or foliage. Indoor plants such as the philodendron and African violet also make nice living plant gifts.

A very special treat for anyone is a gift of Cymbidium Orchids. These exotic flowers can be grown indoors or outside if the climate is suitable. They are available in an array of beautiful colors and are really quite easy to grow.

**ANOTHER EXOTIC** plant that is sure to be enjoyed by everyone is the Gardenia. This flower is unequalled for its perfume and snow white blooms. "Mystery," veitchii and radicans offer large, small and miniature flowers, respectively.

Ornamental shrubs make handsome Easter-time gifts and the field to choose from is practically unlimited. This year, Easter falls in the middle of the Rhododendron blooming season. There is no finer, more beautiful gift this time.

When you go to choose your Easter plant gifts you will be able to select the type of container you want,

### Lutherans Mark End of Lenten Rites

In the 8 o'clock Maundy Thursday evening Communion, the Rev. A. Hesse will speak on "Observing Our Savior by Lamplight."

For the Good Friday evening service, also scheduled for 8, he has chosen as his subject, "Observing Our Suffering Savior in Unusual Darkness." These services at Faith Lutheran Chapel, 835 Hastings Ranch Dr., will conclude the Lenten schedule.

**TWO EASTER** services are scheduled at Faith Lutheran. For the fourth consecutive year, the Sunday School Parent-Pupil Easter service will be held at 9:15. Time will be allowed at the beginning of this service for the baptism of infants and children. Parents who desire to have their children baptized are requested to contact Rev. Hesse no later than Friday.

The congregational Easter service will be at 10:30. The choir, under the direction of Mr. Warren Zeit, will sing.

**MEMBERS OF** the church have been informed about the introduction of a mid-week Bible Hour next Wednesday evening from 8 to 9 o'clock.

To be studied in discussion form will be "The First Epistle of Paul to Timothy," a practical book of ministerial and church matters. The pastor will lead the study. An open forum, singing of favorite religious hymns, and prayer, also will be a part of this midweek hour. Non-members are welcome.

## Edward Everett Horton at Best in Playhouse Farce

By E. L. N. Voorhees

"All for Mary" at the Pasadena Playhouse, by Harold Brooke and Kay Bannerman, starring Edward Everett Horton, is billed as "a farce in three acts." Such honesty of statement pays off; it is certainly a farce in form, and it certainly goes 'round-and-round in its one act of the contest between ex-husband and current husband for the affections of the one wife, until it seems to be three acts, and the curtain goes down with everybody happy on both sides of the plot and curtain. The director, Lenore Shanewise, sees to that.

The setting is cozy throughout—a rustic attic bedroom of a hotel at a winter sports resort "in the French Alps" (with three assorted Alps—one for each act—jauntily visible through the large north window).

The cast is excellent, "on to" its job, and all six players thoroughly enjoying what happens to make the audience applaud, laugh and cavort in its own imagination of what is implied, though never quite consummated, on stage.

EVEN THOUGH the play stands still as far as anything momentous happening is concerned, the very thinly veiled threat is always there, the give-and-take is up-and-up, and even the language—with the exception of two descriptive nouns which, for the preservation of the American public proprieties, are s-p-e-l-l-e-d out from their current and robust British originals—even the language is respectable, if not always respectful.

The play was first produced at the Duke of York's Theater in London, in 1954,

with no greater ballistics of enthusiasm and enjoyment, we are confident, that was pretty constantly evident in its Pasadena audience. Moreover, "All for Mary" has, in this reviewer's opinion, the cleanest text for dealing with sex in the true comic spirit of any Playhouse production in many a month.

OF COURSE, almost any producible farce is sure to go over with Edward Everett Horton in the lead. His characteristic gestures, grimaces, nuances of voice and keen understanding of the demands of any part he will accept takes his audience in tow from curtain to curtain.

If he presents few surprises in his interpretations, he never fails to get the laugh where he intends to find it. That worried and forboding look, and the sly one for stealing a base—or dropping it when caught—are equally potent.

Here he plays the elderly current husband, with a troublesome and itching rash added, against the young, attractive and ever-ready ex-husband, ably played by Robert Courtleigh for the seemingly equivocal loyalty of the young wife, played with vitality and charm by Majell Barrett. Irene Seldner plays an amusing R.N. and Charles Chaplin Jr., the Anglophile hotel owner. You have until May 5.

## Consolidated Sees Income Hike to \$6 a Share by 1960

Net profit of Consolidated Electrodynamics Corp. may rise to \$5 to \$6 a share by 1960, Philip S. Fogg, chairman of the Board, said yesterday. Last year the company earned \$1,283,263 or \$1.35 a share.

Annual sales by 1960 may be at high as \$90 million, if the 40 per cent growth rate which has prevailed during the past 11 years continues, Mr. Fogg told more than 100 members of the Los Angeles financial community. This would be more than three and one-half times the 1956 volume of \$25 million.

The representatives of brokerage, banking and other financial firms were in Pasadena for a tour of Consolidated's new Engineering, Research and Marketing Center.

During the first half of the 1950s, Mr. Fogg said, Consolidated built a foundation for rapid growth without reflecting comparable earnings per share, but in the second half, "earnings will keep pace with the growth."

Consolidated's 1956 Annual Report, released yesterday, revealed this transition. Earnings were up 60 per cent, from 85 cents to \$1.35 a share. Mr. Fogg expects another strong jump in 1957 to \$1.75 to \$2 a share.

"If our five-year forecast, developed a year ago, lives up to expectations," Mr. Fogg said, "our sales will

grow a minimum of 25 per cent and possible as high as 40 per cent each year."

He pointed out that in 1956, the first year of the projected forecast, sales volume of \$25 million was a 46 per cent gain over 1955. He expects 1957 sales to approximate \$35 million, which would be an exact 40 per cent jump.

Mr. Fogg said his figures did not include possible acquisitions. The company acquired three small companies the past year.

### SERVE CRISP POPOVERS FOR SUNDAY BREAKFAST

Is Sunday breakfast a special meal at your house? Is Sunday brunch a time at which you like to entertain? If your answer is yes to these questions, you'll be sure to please the family and delight your guests when you serve crisp-crisped popovers.

**NEW WAY WITH POPOVERS**  
No lengthy, arm-tiring beating is called for in today's recipe for popovers. There's beating, of course, but only enough to get the batter smooth.

No longer do you need special cast iron pans for popovers, and to get the pans piping hot before pouring in the batter. Glass or pottery custard cups or standard muffin pans may be used and these are not pre-heated. Baking instructions are new and easier, too. Instead of the old two-temperature baking directions, new popover recipes call for one temperature setting (425°). You save an extra trip to your range.

**ONE CAUTION**  
Steam is responsible for the leavening of popovers. All-purpose flour, bolstered by eggs (use three instead of two if you buy small eggs for cooking), supplies the "stretch" to hold the steam as it expands during the baking. And there one caution—Don't Open The Oven Door until the baking time is almost over. Cold air on the popovers before they are "set" may make the steam condense and the walls collapse.

**POPOVERS**  
1 C. sifted flour  
1 tsp. salt  
2 eggs  
1 C. milk  
1 Tbsp. melted shortening  
Sift flour and salt together. Beat eggs with a rotary beater until light and thick. Add flour and 1/2 of the milk beating until all the flour is moistened. Gradually add the rest of the milk and melted shortening, beating until the batter is smooth. Fill oiled custard cups or muffin pans almost half full. Bake at 425° for 40 to 45 min. Serve at once. Some folks like to prick each popover with a fork 5 min. before baking is finished. This lets the steam escape and the insides dry a little.

## Beer and Pretzels, Too . . .

## Anybody for a Little Theater in Sierra Madre?

By Sewall Clark

The most important meeting ever held in Sierra Madre occurred last Sunday afternoon when five men met at a local establishment which, out of courtesy to war veterans who had nothing to do with it, should not be named.

All five of us were Sierra Madreans of quite some years, and for that reason we should have known better, but there we were—discussing the possibility of organizing a little theater group within the community. How wacky can you get?

A man by the name of Max Straus was most to blame. Max originated the idea there are any number of people in Sierra Madre who would like to find the means by which a bunch of ham actors can get on stage and act like crazy. Worst of all, he's serious about it. He thinks it can be done.

OUR LITTLE assembly represented different fields of livelihood—ranging from grocer to jet propulsion—which proved how you never can tell from what directions you may find people who enjoy amateur theatricals or barbershop quartets. Besides Max there were Robert Schmitt ("Smitty" to you), Hall Perry and Emerson Reichard. I counted as the fifth man, but barely.

I did my best to discourage them, but just when I was telling how most Sierra Madreans respond like zero somebody dropped a nickel in the jukebox and my argument was blasted by a polka.

Shouting against the music, my associates at the meeting clung to the nostalgic theme of how Sierra Madre was once a colorful village where people entertained themselves instead of being just another Los Angeles suburb where people merely sleep.

We agreed on one point. If there are enough people here so foolish as to form a "Little Theater" group, then the emphasis should be on vaudeville instead of the terrible boredom of watching Joe Doakes and Suzie Zilch trying to make like Romeo and Juliet.

Trouble is, where would you place it? In 15 years we've seen only two adult, amateur productions in Sierra Madre that were successful.

IN BOTH cases the customers were seated at little tables with pretty girls serving beer and pretzels, but the audience extinguished so many cigarettes on the floor that damages had to be paid. Where can you find a local hall with stage that will permit it now?

The best you can say for the "little table" arrangement is that it creates an informality enabling the audience to insult the actors as much as the actors insult the audience. Another advantage is the fact that all profits can be donated to a community project, maybe all of 25 or 30 cents.

When my companions at the meeting accused me of being a negative thinker (or was that the way they spelled it?) I dropped a nickel in the jukebox for a song dedicated to myself, entitled "Show Me the Way to Go Home."

I'm a true Sierra Madrean. I don't want to be bothered

VILLA  
VIEWSBy Toni Maurin  
SYcamore 7-9634

Well, I'll bet the Post Office regrets cutting down its service this week. Unless I miss my guess, this was one of the biggest onslaughts of mail since Christmas. Of course, it all goes one place, but it still has to be sorted, and then the government can just pitch in and count and count and count.

Another happy contingent this week will be the egg merchants. My goodness, the chickens will just have to work overtime to keep up with the demand. I have often wished for the time to decorate eggs the way they do in some of the European countries with all of the fancy painting. I'd venture a guess that those children are quite content with just one egg rather than the copious amounts that our children seem to amass.

ALONG THE Easter egg lines, Mr. and Mrs. P. L. Wetcher of 1805 Kinneloa Mesa are giving an Easter egg hunt for their children, Diane and Brian, and 54 of their school and neighborhood friends on the 20th from 2 to 4 in the afternoon. All-Ball, the well-known clown, will be there with magic acts, games and favors for the children, and they will spend some time looking for candy and Easter eggs, to be topped off with ice cream. There will be children ranging in ages between 2½ and 9. This is the second annual hunt and, believe me, the Wetchers get as much fun out of it as the children.

MR. AND MRS. KEIRN Zebb of 1434 Old House Road were recently feted with a surprise house warming. I should say they surprised Mr. Zebb. They had to tell Mrs. Zebb because the date they had chosen coincided with his birthday and she had made plans to spend the evening elsewhere.

The party was given by the Co-operative Wind Tunnel Staff of Caltech and 21 guests contributed to make it a rip-roaring affair. They brought the entire dinner and then presented the Zebbs with a gift certificate for the house.

THE BURTON DAKES of 2007 Villa Heights left last week for their annual jaunt to San Felipe, with the four children, Stephanie, Robin, Debbie and Ricky, in tow. They met friends down there and a perfectly wonderful time was had by all.

MRS. EDWIN PYLE and her daughter, Julie, of 1432 Old House Road, spent a few days this week at the Firecliff Lodge in Palm Desert. This was about their last opportunity to take a trip before the prenuptial parties begin for Julie.

MR. J. E. HADDOCK JR., of 1215 Wynn Road, left last Friday for a business trip to Guatemala. He is expected back tomorrow. While he was gone Mrs. Haddock made a short trip up to Santa Barbara during vacation time.

LITTLE BRUCE ELMER, son of Mr. and Mrs. Dave Elmer of 3480 Fairpoint, celebrated his third birthday last week with six of his little friends and their moms. They all had luncheon with all the glamour of a fancy birthday cake as the highlight of the festivities. Mrs. Elmer had their patio gaily decorated with balloons and streamers much to the delight of the children.

THE ART BREARLEYS of 3231 Barhite and their two sons, David and Bob, spent a few days on their boat, the Westwind III, during this week. It is anchored at Alimitos Bay and the biggest disappointment was not having time to go to Catalina this vacation.

Everyone is invited to attend the "May Day Luncheon." Mah Jong, cards and conversation will be enjoyed following lunch. Reservations may be made by calling Mrs. Danahik, ELgin 5-2952; Mrs. Honowitz, ELgin 5-3219, or Mrs. Miller, ELgin 5-2763.

## Ranchettes.

A seventh child, Stephen Allen, was born to Mr. and Mrs. John F. Horn, 1060 Pinebluff Dr., Feb. 28 at St. Luke Hospital, weighing 9 pounds, 8 ounces. The maternal grandparents are Mr. and Mrs. E. F. Howell of Rockford and Danville, Ill. The other Horn children are John, 11; Linda, 10; Cheryl, 9; Sheila, 8; Doreen, 3½, and Tommy, 20 months.

Mr. and Mrs. John W. Zea, former Ranch residents now making their home in Pasadena, are the parents of a daughter, Cheryl Lynn, born April 9 at St. Luke Hospital, weighing 7½ pounds. The paternal grandmother is Mrs. Maude Zea of Chicago, Ill. The maternal grandparents are Mr. and Mrs. Wilbur Kir, also of Chicago. The other Zea children are Jackie, 7; Tim, 6; Steve, 5; Kirk, 4, and David, 2.

A daughter, Catherine Ann, was born to Mr. and Mrs. Robert A. Jacobson, 1225 Tropical, April 9 at Huntington Memorial Hospital, weighing 6 pounds, 12 ounces. The paternal great grandmother is Mrs. Mary Langley, also of Huntington Park. Mrs. McDuffee is in the Ranch now and plans on a two-week visit with her new granddaughter. The Jacobsons have a son, Peter, 2.

A collection of French, Italian and English fashions for spring and summer will be shown following a salad luncheon at the San Marino Women's Club, 1800 Huntington Dr.

The only variations between the original and its counterpart will be in colors and fabrics, dictated by the American woman's standards, according to producers of the show. Creations by 16 designers will include those of Balenciaga, Givenchy, Chanel, Capucci and Desses, as well as the originator of the "new look," "Monsieur X."

Dorothy Downing, fashion coordinator, will narrate the show. Orville R. Foster, composer, arranger and teacher, will play the organ during the luncheon and show.

The "Continental" theme will be carried out by table decorations of small French poodles and silver parasols standing in a field of magenta tulle under sprays of pink coralwood. The decorations were designed and made by Mrs. John Morris, Mrs. William Smylie, Mrs. Lou Jennings, Mrs. Joseph Smyth and Mrs. Allen Stearns. Individual favors tied in magenta net will mark places at the tables.

Mrs. John Walker and Mrs. Andrew Eshman promise a number of door prizes. Mrs. Ronald Kemp and Mrs. William Shiner are in charge of the luncheon. Mrs. Brooks La Boteaux reports tickets sold out, but seating reservations may be made by calling her at ELgin 5-3719.

Little League Teams Set  
For Opening in May

By Charles Ayres

Hamilton Park has turned into a beehive of activity and is more than somewhat overrun by a large group of small fry—namely boys between the ages of 9 and 12—all intent on the same thing. This "thing" happens to be an attempt to master enough of the techniques of baseball to allow them to clobber their buddies when firing gets under way in the Hastings Little League.

The fact that one diamond is bedeviled by hordes of pebbles and the other is prone to resemble a Florida swamp during the early morning hours hasn't seemed to deter them.

Selection of the players on the six major league teams was made last week and all have had at least one practice. The two new teams, Wally Johnson's Dodgers and Dick Fowler's Tigers, have logged some extra practice time wherever they could find it. A large portion of Bud Winterbottom's Yankees are showing hard muscles and fine stunts after a session of winter league ball.

OPENING DATE for the season's activity has not yet been set but will be sometime in May. The selection of the squads in the farm league have yet to be made but with over 120 boys to play there will be at least an 8-team league. With so many teams vying for time, a practice schedule is being drawn up that will be more complicated than the league schedule.

Rosters of the major league teams:

Reds — Mike Ayres, Jim Cameron, Hugh Saurenman, John Sorensen, Shannon Rosister, Bill Bausman, Tim Doyle, Norman Beck, Pete

Tigers — Don Hagen, Bob Jonkers, David Stivers, Bill Hoffine, Pete Jensen, Dave Olwin, Tim Paxson, Steve Horne, Ron Stine, Steve Stubbs, Greg Fowler, Bill Gillett, Bruce Howell, Rob Thibaut and Wayne Wilson.

Yankees — Rusty Pooler, Gary Winterbottom, Lee Miller, Dick Neiderman, Pete Ferrecone, David Zehr, Dick Gnagi, Fred Reickle, Don Peterson, Paul Jacobs, Randy Walburg, Greg Johnson, Vance Frontino, David Coddington and Chip Slavin.

Dodgers — Jay Ziegler, Brad Karelius, George Haver, Pat Taylor, John Kreft, Roger Pancoska, Brian Wardlaw, Chet Osborn, Stan Smith, Bob Neiderman, Gene Vance, Bruce Beck, Mike Regnolds, Chris Carroll and Denny Johnson.

Camp Fire Leaders  
Plan Style Luncheon

Leaders of Camp Fire and Blue Bird groups from the San Gabriel Valley will get together for lunch and a fashion show at 12:30 Wednesday at the Riviera in San Marino.

A spring theme will be carried out, with colorful hats used for table decoration and individual favors. Some 400 leaders and their assistants are expected to attend.

Models for the show, which will be offered by Flornina, are representatives from the leaders themselves, one from each of the eight districts.

Representing the Sierra-Hastings district will be Mrs. Charles E. Abbe. Others will be Mrs. Robert Stampley, East Pasadena-Altaadena; Mrs. John Preston, La Canada; Mrs. Maurice Pitzer, West Pasadena-Altaadena; Mrs. K. A. Campbell, Monrovia Duarte; Mrs. Harry A. Nelson, Temple City; Mrs. John Forsha, South Pasadena, and Mrs. J. A. Eckardt, San Gabriel.

Plans for the luncheon were made by Mrs. R. B. Malmgren, La Canada; Mrs. Robert N. Johnston, West Pasadena-Altaadena, and Mrs. Clarita Rider, South Pasadena. Decorations have been devised by Mrs. K. D. Hanrahan, San Gabriel, and Mrs. Charles A. E. Archer, Temple City.

The program and arrangement of the fashion show are in the hands of Mrs. E. Stanley Ellis, East Pasadena-Altaadena, and Mrs. Norman Shanks, Sierra-Hastings. Mrs. John Diehl, Monrovia-Duarte, is in charge of the hostesses. A hostess will be chosen from each district to assist at the luncheon.

Families of Blue Birds and Camp Fire Girls in the Sierra-Hastings district will spend the weekend of May 4 and 5 at Camp Wasegagan, the Camp Fire summer camp in the San Bernardino mountains.

The occasion is a WOPAPA, which means, taking the first two letters of each word. Parents will help ready the camp for summer use of the girls.

Families of all girls in the district are invited to participate, with entertainment as well as work planned. Mr. and Mrs. Bob Cress are chairing the event, and Draper Jennings is in charge of the program.

Families are expected to arrive by lunchtime Saturday, bringing their own lunch. Saturday dinner, Sunday breakfast and lunch will be provided at 50 cents a meal for all over 8 years old and 25 cents for children younger. A Sunday morning worship service is scheduled.

Reservations must be made by Wednesday, with Mrs. Norman Shanks, chairman of the Leaders' Association, or individual leaders.

Render to  
Field PTA All  
Old Grease

Pour your old ham fat, lamb fat, French fried potato fat, your beef fat, pork fat, leftover bacon fat—into a can or milk carton.

Then—hoard it for the Eugene Field "grease drive" coming May 2. If you have children in Field, or if your neighbor does, please save those greasy calories, turn them in at the school May 2 between 7:30 a.m. and 1 p.m. Or, before that, leave them at 745 Hastings Ranch.

The PTA has a deal to sell the grease to a rendering company, which makes use of it and is happy to do so. The PTA is happy to make the money, which it needs for things.

YOU should be happy because it will save you from trying to think up some sneaky way to get rid of the stuff, like putting it in the "can" for the "can" man to take off.

Mr. and Mrs. Robert L. Farmer, 1010 Pepperhill, and their sons, Cort, Scott and Eric, have been enjoying the Easter vacation in their home at Balboa.

Vitamin Use as 'Cure-All'  
Unwise and Dangerous

(Presented as a public service by the Foothill Branch of the Los Angeles County Medical Association.)

"Vitamin" is a familiar word to all of us. Few of us, however, are aware of the broad area of scientific knowledge that lies behind these essential substances in food.

Vitamins are organic substances of known chemical structure which are present in very small amounts in most foods. Because the body requires only small amounts of them, all of the normal requirements can be met by simply eating an adequate, balanced, nutritional diet.

**CERTAIN ILLNESSES**, however, interfere with the body's assimilation of vitamins. Then supplementary treatment with concentrated, synthetically-produced vitamins is required.

There are some 15 to 20 known vitamins. Some are a bit obscure in their effect, but the ones most commonly referred to, and some of the foods in which they are found in good supply, include:

Vitamin A is found in such vegetables as spinach and especially carrots, in butter and in colored margarine. If there is insufficient Vitamin A in the diet, night blindness and certain scaly skin diseases will result.

Vitamin B Complex is a group of differing "B" vitamins, among them thiamine (B1), riboflavin (B2), niacin,

pyridoxine, choline, folic acid and inositol. Among the more common sources for the B complex group are liver, pork, yeast, whole grains, cereals and milk. Lack of B complex vitamins contributes to such disorders as beriberi, cheilosis, pellagra, pernicious anemia and liver disease.

**VITAMIN C** is found for the most part in the citrus fruits such as lemons, oranges and grapefruit. Scurvy is the usual result of insufficient intake of Vitamin C.

Vitamin D is present to some degree in milk and butter, but perhaps its primary source is fish liver—such as cod liver oil. It is important in preventing rickets as it helps in the body's use of calcium and phosphorus in the formation of bone.

Vitamin K is found in leafy vegetables. A less common source of it is rice bran and hog liver. It is helpful in producing the component, prothrombin, in the blood which contributes to the blood's ability to clot.

Contrary to many claims extolling the virtues of this or that vitamin preparation, vitamins are not a cure-all. Some of these products claim to be valuable in counteracting "tired feeling," "tenseness," etc.

It can be dangerous to assume that these feelings are due solely to a lack of vitamins. Many serious, even fatal disorders can be at the root of the trouble. Only a trained physician, using all of the knowledge and laboratory facilities at his command, can accurately diagnose the problem.

More petroleum moves over  
Santa Fe than over any other  
railroad in the country

The 2,384,000,000 gallons of petroleum that Santa Fe moves every year is the river that flows on wheels.

It's so large that it makes Santa Fe the No. 1 petroleum railroad in the country.

This flood tide of oil gives heat and power to farms, factories, military installations and homes all over the nation.

The tremendous demand for petroleum, in all its forms, poses special problems for Santa Fe. For it requires speed and service to keep that river flowing full force. Here are a few of the ways we get the job done:

We move empty tankers just as fast as full ones, so no vehicle will stand idle.

As new oil fields are opened up, we stand ready to serve them. And when new developments take place within the industry, we adapt ourselves to take care of them.

As an example, take liquefied petroleum gas. The demand for it has skyrocketed in the last 10 years, because with this "bottled gas" rural families can cook and heat with gas just like city people. And the railroads have made it possible for them to get it.

Santa Fe runs special LPG trains when the demand for this product requires it. In a year, these trains carry enough LPG to heat over 500,000 homes from November through April.

This is just a part of the story of the dependable transportation service Santa Fe is providing to essential industries that contribute so much to the welfare of our country.

**Delta Zetas Fete Mrs. Jones At Reception**

Delta Zetas of the Pasadena Foothill alumnae chapter honored Mrs. Hugh Jones, president of the Pasadena Panhellenic Association, at tea Thursday afternoon at the home of Mrs. Otto Nelson in San Marino.

Notable among accomplishments this year, the Panhellenic Association published a factual pamphlet, "College Guide Posts" for all high schools girls to attend the Panhellenic award tea May 4; provided for seven scholarships to be awarded at the tea, and assisted in organization of the East San Gabriel Valley Area Panhellenic Association.

**FUN FOR CHILDREN**

Parents!! You are invited to enroll your children in the **ADVENTURE DAY CAMP** which meets on Saturdays during the school year and Monday through Friday during the summer vacation. Transportation is provided. They bring their own lunch. We give them excellent instruction in swimming, diving, water safety, riding, ice skating, handicraft, games and sports.

Interesting trips are taken to beaches, mountains, places of educational interest. They enjoy cook-outs, adventure stories, and occasional overnight sleep-outs.

All activities are under the direction of Paul Gerrish, Ph.D., instructor at the Pasadena City College since 1937, aquatics supervisor and camp director for 28 years, former college athlete and coach, and instructor of university classes for training teachers and coaches of swimming and physical education. All camp instructors are trained and experienced in teaching and guiding children.

For further information please call SYcamore 3-3001, or SYcamore 2-5555, or write to Paul Gerrish, 3001 East Foothill Boulevard, Pasadena, California—Adv.
